

CURRICULUM VITAE

Name: Albert C C Goh

Current position: Senior Staff Specialist
Interventional Radiologist
Royal North Shore Hospital
North Shore Private Hospital
Norwest Private Hospital
Westmead Private Hospital

Qualifications:

MBBS, BSc(Med),
University of New South Wales 1996

FRANZCR
Royal Australian and New Zealand College of Radiologists 2005

Accredited level 2 Cardiac CTA 2008

European Society of Radiology 2008

Accredited Conjoint committee for Peripheral Endovascular Therapy 2010

Accredited Conjoint committee for cardiac CT 2011

European Board of Interventional Radiology 2015

Reviewer: Cardiovascular and Interventional Radiology Society of Europe 2016

Professional appointments:

Senior Staff Specialist Interventional Radiologist,

Royal North Shore Hospital 2010 to present.
Norwest/Hills Private Hospital 2008 to present.
North Shore Private Hospital 2010 to present
Westmead Private Hospital 2005 to present

Panel of Clinical Experts,

Department of Health and Ageing 2009 to present

Interventional Neuroradiology Fellow

2009, Royal North Shore Hospital

Director of Interventional Radiology

2006 to 2008, Westmead Private Hospital

VMO Interventional Radiologist

2006 to 2008, Concord General and Repatriation
Hospital

Clinical Associate

2007 to present, Liverpool Hospital

Interventional/ MRI Fellow

2005, St George Private Hospital

Accredited Radiology Registrar

2001-2004, South Eastern Sydney Area Health Service
(including St George, Prince of Wales, Sutherland Hospitals)
2000, Liverpool Hospital

ICU Registrar 1998, 1999, North Shore Private Hospital
Anatomy tutor 1998, 1999 University of New South Wales
RMO 1 1997, NSCCAHS
Internship 1996, NSCCAHS

Special interests:

Endovascular Intervention

- Embolisation and peripheral re-vascularisation
- Angioplasty, stenting
- Aneurysms embolisation

Renovascular intervention

- Renal artery stenting
- Embolisation of renal aneurysms
- Embolisation of renal AVM/Fistula

Renal Dialysis Intervention

- Permacath insertion
- Permacath salvage (fibrin sheath stripping et.c)
- Fistulogram and fistuloplasty
- Pharmaco-mechanical thrombolysis of occluded dialysis fistula
- Recanalisation of central vein occlusion

Spinal neuro-intervention

- Percutaneous vertebroplasty
- Transforaminal epidural block
- Interlaminar epidural block
- Percutaneous provocative discography

Interventional Oncology:

- Percutaneous biopsy
- Cementoplasty
- Implanted venous access: Hickman Catheter and Portacath insertion
- Radio-embolisation
- Chemo-embolisation
- Microwave ablation

Body Intervention:

- Biliary decompression, Percutaneous Transhepatic Cholangiography
- Biliary stenting
- Renal decompression, Percutaneous Nephrostomy
- Ureteric stenting
- Abscess drainage

Published Articles:
