

RESUME

PERSONAL PARTICULARS

NAME:

AMALI BINTI AHMAD

EDUCATION

- 29 April 2016** : Gazetted as Head and Neck Fellowship in Radiology by Ministry of Health Malaysia
- 2010-2014** : Underwent subspecialty training in Head and Neck Radiology in Hospital Kuala Lumpur followed by 9 months subspecialty training in Head and Neck Radiology in Tan Tock Seng Hospital, Singapore
- 2003 – 2007** : Master of Radiology, University Malaya
- 1992 - 1998** : MBBS, Ramaiah Medical College, Bangalore, Bangalore University, India. Sponsored by the Government of Malaysia.
- 1989** : Sijil Pelajaran Malaysia (SPM)
Qualification Obtained : 1st Grade (9 aggregate)
Kolej Islam Sultan Alam Shah, Klang, Selangor, Malaysia.

Registered with the Malaysia Medical registration on 12th April 2000

WORK EXPERIENCE

1999 - 2000	House Officer	Hospital Alor Star, Kedah, Malaysia.
2000 - 2001	Medical Officer	Out Patient Department, Kuah, Langkawi, Malaysia.
2001 - 2002	Medical Officer	Hospital Langkawi, Malaysia.
2002 - 2003	Medical Officer	Radiology Department, Hospital Alor Star, Kedah, Malaysia.
2003 - 2007	Master Student	University Malaya, Malaysia.

February 2008 – November 2009	Radiologist	Hospital Kuala Lumpur, Malaysia.
November 2009 till Jun 2010	Radiologist	Hospital Sultan Haji Ahmad Shah, Temerloh, Pahang. Malaysia.
July 2010 –August 2013	Radiologist under going fellowship training in Head and Neck Radiology	Hospital Kuala Lumpur, Malaysia.
September 2013 –May 2014	Underwent training in Head and Neck Radiology	Tan Tock Seng Hospital, Singapore. Completed Head and Neck Radiology on 31 May 2014.
June 2014 till now	Radiologist with subspeciality in Head and Neck Imaging	Hospital Kuala Lumpur

Gazettement as a radiologist on 4th August 2008 at Hospital Kuala Lumpur, Malaysia

Nature of work :

1) Clinical Works:

- a) Reporting plain radiograph
- b) Reporting mammogram
- c) Reporting CT scan of brain, head and neck, thorax, abdomen, pelvis, 4 phases liver, 4 phases kidney, CTA brain and Neck, CTA mesenteric artery and etc
- d) Reporting MRI cases including brain, head and neck, spine, brachial plexus, pelvis, MRA brain, MRA renal, MRA lower limbs.
- e) Ultrasound cases- Abdomen, KUB, Breast and small parts (eg :thyroid , testis), simple musculoskeletal cases.
- f) Doppler ultrasound of Carotid, Kidneys, AFV, DVT and etc.
- g) Fluoroscopy – barium swallow, small bowel follow through, barium enema, HSG.
- h) Ultrasound guided fine needle aspiration of the thyroid and head and neck lesion.
- i) Ultrasound guided drainage
- j) Ct guided biopsy

2) Taking part in the weekly interdepartment conferences as scheduled

- i. Monday (8 – 9 am) – Radiology- Neuromedical conference
- ii. Monday (2.30 – 3.30pm) – Radiology- Oncology conference
- iii. Tuesday (8 – 9 am) – Radiology-ENT conference
- iv. Thursday (8 – 9 am) – Radiology – Surgical conference
- v. Thursday (2.30 – 3.30.pm) – Radiology – Medical respiratory conference
- vi. Friday (8 – 9 am) – Radiology – Urology conference

- 3) Supervise the reporting and procedure done by the medical officer and teaching the Master of Radiology students from National University Of Malaysia and open system Master of Radiology from University of Malaya as they come for training in Kuala Lumpur Hospital periodically .**

4) Involve in the training and giving lectures:

- a) As one of the speaker in Radiographer's course "UPDATES FOR RADIOGRAPHERS: FACIAL BONES AND PARANASAL SINUSES " – topic Anatomy & Pathology Of Facial Bones &Paranasal Sinuses on the 5th July, 12th July and 20th September 2012. Venue Radiology department Kuala Lumpur Hospital.
 - b) As a speaker in the "COMPUTERISED TOMOGRAPHIC HEAD & NECK course in Kuala Lumpur Hospital on the 6th July 2012
 - c) As a speaker and facilitator in the "CT ANGIOGRAPHY OF THE BRAIN" . Venue Radiology Department Kuala Lumpur Hospital.
 - d) As a speaker for the Head and Neck Imaging course in Sungai Petani Hospital Feb 2015
 - e) As a speaker and organizer for the Head and Neck imaging course in Radiology Department HKL 25-26 August 2016

- 5) As one of the committee's member involving in the preparing of "Clinical practice Guideline for Nasopharyngeal Carcinoma for the Ministry of Health Malaysia

RESEARCH AND CASE REPORTS

1. Thesis: MRI diagnosis of uterine adenomyosis: Comparison with transabdominal and transvaginal ultrasound – during master of Radiology programmed. (2003-2007)
2. Case report " Large coronary artery fistula. During master of radiology (2007)
3. Case report "Large pelvic wall leiomyoma involving the perineum and gluteal region sparing the uterus". During master of Radiology (2007)
4. Case report " Multifocal skeletal tuberculosis with skip lesion and without disc involvement". During master of Radiology programmed (2007)
5. Case report: Moya-moya disease of the supraclinoid ICA. Being accepted as poster presentation during AAR 2017 Kuala Lumpur.
6. Involve in the multidepartmental study: Is nasogastric tube contributing to the fever of unknown origin?.Still ongoing study.

INVOLVEMENT IN THE SOCIETY

1. Academy of Medicine Malaysia as Ordinary member since 2010
2. College of Radiology Malaysia as Ordinary member since 2008
3. Malaysia Ultrasonic Society as Life member
4. Radiology HKL Welfare Society as Ordinary member
