

Dr Pua Uei is a fellow of the Society of Interventional Radiology (SIR), the Cardiovascular and Interventional Radiology Society of Europe (CIRSE), the Royal College of Radiologists (United Kingdom), the Academy of Medicine, Singapore, and is the immediate past president of the Singapore Radiological Society. He is a founding and board member of the Society of Interventional Oncology (SIO), board member of the Asian Society of Tumor Ablation (ACTA) and executive council member of the Asian-Oceania Society of Radiology (AOSR). He recently served as an International Visiting Professor for the Radiological Society of North America (RSNA).

His vast interests in interventional radiology include peripheral vascular & aortic intervention, oncologic embolization, tumor ablation, and cementoplasty. He was featured in the main stream media for his work in stentoplasty of osteoporotic fractures, cryoablation of renal tumors, percutaneous EVAR, transradial intervention and complex aortic endografting. He is active in medical education and is an Associate Professor of Radiology in the National University of Singapore. He has published more than 120 peer-reviewed publications.
